Client/Server for SQL Server

Certified Payroll

- Provides all detail information required for WH-347 form filing
- Optional MAS 90 • MAS 200 Job Cost integration

The Champ Systems Certified Payroll enhancement allows users to keep a detailed audit report of the hours, rates, and wages paid, by day and classification, for each employee during a pay cycle. This report is submitted directly to the US Department of Labor in lieu of the manually prepared WH-347.

See reverse for a detailed description of how the enhancement works.

CERTIFIED PAYROLL

Operation:

The user specifies, by flagging both certified jobs and certified cost codes, which labor entries are to be included on the Certified Payroll Report. If both the job and cost code on a line of payroll entry are flagged as "certified," the Payroll Data Entry program will prompt the user to enter the day (1-7 corresponding to Sunday through Saturday) on which the labor occurred.

The Payroll Tax Update will post the appropriate data

to the Certified Payroll Report. If the user also has the Champ Systems Union Payroll enhancement, the extra union benefits created will also post to that report.

The Certified Payroll Report prints as part of each payroll pay cycle, and can be set up to print more than one copy. The Certified Payroll module can be run with or without the MAS 90 • MAS 200 Job Cost module (please specify when ordering).

Type	Code	State	Local	Dept	Labor Code	W/C Code	Job No.	Cost Code	Day of the Week	Rate	Hrs	Amount
